

## Product Highlight: Conventional Series – GPC X1 & X4 Cantilevers

Conventional liftgates are the original style of liftgate. These liftgates are stored flush against the door of trucks and often serve as the actual door of these vehicles. Consequently these liftgates offer the largest platforms possible and are designed for general as well as highly specialized freight loading.

Maxon's conventional liftgate offerings provide exceptional reliability and offer a wide range of platform sizes for many different uses. Here's an overview of each category that details more about the exceptional 2-cylinder X1 and 4-cylinder X4 technology.

### GPC 17X1 & 22X1

#### GPC 17X1 & 22X1

The GPC X1 cantilever series combines the lowest weight in its class with exceptional durability and low maintenance requirements. The X1 technology simplifies the entire lifting mechanism by eliminating two cylinders. The simple structure means that there is less to maintain over the life of the liftgate.

#### Specifications:

- Lifting Capacities: 1,700 lbs. to 2,200 lbs.
- Bed Heights: 27.5" – 51"
- Weight: 389 lbs. to 612 lbs.
- Platform material: Aluminum

#### Standard Features:

- Robust & lightweight Aluminum platform
- Platform automatic leveling with soft landing
- Platform with warning lights
- Dual cart stops
- Platform ground rollers
- Stainless cylinder rods with nitrate treatment
- Completely sealed flat panel main control
- Hand held control
- Cab cut-off switch

#### Optional Features

- Full Door Seal Kit
- Flip-Up Door with Seal Kit
- Foot controls
- Slide Roll Off Guards
- Install Fixture
- 24 Volt Pump/Motor System

## GPC 33X4 & 44X4

The GPC X4 cantilever series maximizes power and stability for heavy load applications. The patent-pending X4 technology features 2 lifting and 2 tilting cylinders that are stacked above each other. This design optimizes platform stability and leaves more space for light placement.

### Specifications:

- Lifting Capacities: 3,300 lbs. to 4,400 lbs.
- Bed Heights: 40 " – 56.5"
- Weight: 923 lbs. to 1,250 lbs.
- Platform material: Aluminum

Standard and Optional features for the GPC 33X4 & 44X4 are the same as noted above.
